River City Science Academy
7565 Beach Boulevard
Jacksonville, FL 32216

Dear Students, Educators, Administrators and Parents,

I would like to congratulate River City Science Academy for its 10 years of innovative education. Through this program, Florida's best and brightest are provided with the fundamental skills to become tomorrow's leaders in science, technology, engineering and mathematics (STEM). I commend you and your staff for your dedication to high student achievement.

As technology becomes more advanced, it is vital that our students are equipped with the skillset to identify problems, evaluate evidence and interpret information. Parents are also instilling the importance of community involvement to produce well-rounded leaders. As a result, when these scholars are ready to enter our nation's workforce, there will be countless opportunities to put their talents to good use.

Your commitment to excellence stands as a reminder of what is possible for the students of Florida. River City Science Academy should be proud of this significant accomplishment. I wish you all the best and continued success for many years to come!

Sincerely,

Al Lawson, Jr.
