River City Science Academy
7565 Beach Boulevard
Jacksonville, FL 32216

Greetings!

Congratulations to River City Science Academy's educators, parents, and students whose hard work and dedication has paid off as they have become the Science Olympiad State Champions! The young innovative minds at this school make me excited for the future of this great nation. Without the support, team-attitude and love of learning embedded in the students this momentous achievement wouldn't be possible. I applaud you on this achievement.

In this constant changing world, we need more critical thinkers and leaders of positive change. The River City Science Academy is doing its part by providing structure, order and a sense of community that young minds need to grow and flourish. When we educate students in STEM fields, we are making an immeasurable investment in the future, and real-world significance is incalculable.

Through teamwork, initiative, and thirst for knowledge, you have truly achieved something spectacular and I hope you are as proud of yourselves as I am of you! Please continue to challenge yourselves by being the best learners, educators and parents that you can be. I look forward to seeing what the future holds for Florida's 5th Congressional District through the STEM leaders of tomorrow! Go Rocket Scientists!

Sincerely,

Al Lawson, Jr.
Member of Congress
